Re: Jobsite: 377 Greenwich Street, Manhattan, NY
Permit No. - 120878782

I, Paul Bailey, Professional Engineer, am hereby requesting the renewal of the above referenced sidewalk shed permit. The building condition is good. The work is 75 % complete since the initial issuance of the permit, and expected to complete around February 29, 2013.

My understanding, that the reason for the delay of the project is the owner has trouble finalizing design aspect of the project, which set all the work back

For further questions, please contact Lanier Yeates at The Greenwich Hotel at 646-203-0014.

Sincerely,

Paul Bailey
