To Whom It May Concern:

This letter shall serve as a notification to the New York City Fire Department that work will be performed to modify the existing sprinkler system at the above location. In accordance with Technical Buildings Bulletin 2012-009, please find the required information pertaining to the temporary disconnection of the sprinkler system detailed below:

- The Scope of work is as follows: Relocate 24 sprinkler heads, install 9 new sprinkler heads with associated piping.
- Date of work: October 23, 2012
- Time of work: 7 a.m. to 3p.m.
- Duration of disconnection: Temporary not to last more than 7 hours per day, approximate 5 day duration
- Temporary Fire Protection measures provided: Fire watch during shut down

Should you have any questions and/or comments please feel free to contact me.

Very Truly Yours,

Mark Landstrom, RPA
Regional Manager
