Tenant Protection Plan *Required for all applications with occupied dwelling units. (2014 AC 28-104.8.4) Means and methods shall be described with particularity and in no case shall terms such as "code compliant," "approved," "legal," "protected in accordance with law" or similar terms be used as a substitute for such description. The elements of the Tenant Protection Plan may vary depending on the nature and scope of the work but at a minimum shall make detailed and specific provisions for:*

1. **Egress** - Clarify how adequate egress will be maintained during construction.
2. **Fire Safety** - Identify safety measures to maintain fire safety of occupied dwelling during construction.
3. **Health requirements** - Specify methods to be used for control of dust, disposal of construction debris, noise control, maintenance of sanitary facilities during construction.
 - 3.1. **Lead and asbestos** - Statement of compliance with applicable provisions of law relating to lead and asbestos, such statement shall describe with particularity what means and methods are being undertaken to meet such compliance.
4. **Compliance with housing standards** - Demonstrate compliance with NYC housing maintenance code and NYS multiple dwelling law during construction.
5. **Structural safety** - Identify specific measures to maintain structural stability during construction.
6. **Noise restrictions** - Identify measures to comply with NYC Noise control code during construction.
7. **Maintaining essential services** - Describe the means and methods to be used for maintaining heat, hot water, cold water, gas, electricity, or other utility services in accordance with the requirements of the New York City Housing Maintenance Code. Specify if a disruption of any such service is anticipated during the work, including the anticipated duration of such disruption and the means and methods to be employed to minimize such disruption, including the provision of sufficient alternatives for such service during such disruption.
8. **Other requirements** - Any additional requirements to assure tenant safety during construction.

Complete all sections that apply below.

28-104.8.4 Tenant protection plan. Construction documents for alterations of buildings in which any dwelling unit will be occupied during construction shall include a tenant protection plan. Such plan shall contain a statement that the building contains dwelling units that will be occupied during construction and shall indicate in sufficient detail that specific units that are or may be occupied during construction, the means and methods to be employed to safeguard the safety and health of occupants, including, where applicable, details such as temporary fire-rated assemblies, opening protective, or dust containment procedures. The elements of the tenant protection plan may vary depending on the nature and scope of the work but at a minimum shall make detailed and specific provisions for:

1. **Egress**. At all times in the course of construction provision shall be made for adequate egress as required by this code and the tenant protection plan shall identify the egress that will be provided. Required egress not be obstructed at any time except where approved by the commissioner.
2. **Fire safety**. All necessary laws and controls, including those with respect to occupied dwellings, as well as additional safety measures necessitated by the construction shall be strictly observed.
 - A. All building materials stored at construction area and/or in any area of the building are to be secured in a locked area, access to such areas to be controlled by owner and/or general contractor.
 - B. All materials to be stored in an orderly fashion.
 - C. All flammable materials to be used and stored in an adequately ventilated space.
 - D. All electrical power to be shut off where there are any exposed conduits.
 - E. All electrical power in the construction area to be shut off after working hours.
 - F. Contractor at all times to make sure that there is no leakage of natural gas in the building or any flammable gas used in construction.
 - G. All hazardous/ flammable materials to be stored in accordance with the NYC fire department, OSHA, DEP, and all other agencies having jurisdiction.
 - H. Existing sprinkler system to remain and to be fully functional throughout building. Changes to existing sprinkler system to be filed under separate application.
3. **Health requirements**. Specification of methods to be used for control of dust, disposal of construction debris, pest control and maintenance of sanitary facilities, and limitation of noise to acceptable levels shall be included.

Continue on next page, if necessary.
