220 FIFTH AVENUE Apt/Floor: 006,007
Madison Square North Historic District
MANHATTAN
Block/Lot: 828 / 35

The staff of the Landmarks Preservation Commission recently received an application for the installation of a bracket beam (scaffold support) platform at the north (side) facade at the subject premises. Accordingly, staff reviewed the submitted materials and determined that the proposed work has been found to be exempt from review by the Landmarks Preservation Commission. Therefore, this work does not require a permit from the Landmarks Preservation Commission and the application is being withdrawn by the staff of the Commission.

PLEASE NOTE: If there is any change or expansion of the proposed work, the owner and applicants should contact the Landmarks Preservation Commission to determine if a permit may be required.

Thank you for your cooperation.
