Stuart Berger
957 Park Realty, LLC.
502 East 79th Street
New York, NY 10075

Pursuant to Section 25-306 of the Administrative Code of the City of New York, the Landmarks Preservation Commission hereby approves certain alterations to the subject premises as proposed in your application completed on March 13, 2019.

The approved work consists of exterior alterations, including installing a wall mounted condensing unit at the inboard side of a parapet of a lot line wall, as well as interior alterations at the fifth floor floor, including the demolition and construction of nonbearing partitions and finishes, as well as mechanical, plumbing, electrical, and HVAC work, as shown in existing condition photographs and on drawings labeled M-100, M-101, M-201, M-202, M-203, LM-100, LM-101 and LM-102, dated February 27, 2019, and prepared by Stanislav Slatsky, P.E., all submitted as components of the application.

With regard to this proposal, the Commission finds that the work is in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-21 for Installation of Heating, Ventilation, Air Conditioning and other Mechanical Equipment, including Section 2-21(e) for wall-mounted HVAC and other mechanical equipment. The work, therefore, is approved.

Please see Title 63 of the Rules of the City of New York for complete text of any Rule section(s) cited in this permit: <http://www1.nyc.gov/site/lpc/applications/rules-guides.page>

The Commission has reviewed the application and these drawings and finds that the work will have no effect on significant protected features of the building.

This permit is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of the approval. The work is limited to what is contained in the perforated document. Other work or amendments to this filing must be reviewed and approved separately. The applicant is hereby put on notice that performing or maintaining any work not explicitly authorized by this permit may make the applicant liable for criminal and/or civil penalties, including imprisonment and fine. This letter constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to Lyndon Robinson.

Sarah Carroll
Chair
