Re: Jobsite: 134 Reade Street, NY
Permit No. - 140042077

I, Paul Bailey, Professional Engineer, am hereby requesting the renewal of the above referenced sidewalk shed permit. The building is in fair condition. The shed is required for the façade repair of the building. The work is 0 % complete since the initial issuance of the permit and the work is expected to be finished approximately at middle of September, 2014.

The permit was issued on 12/3/12 but expires on 1/27/13 due Spring Scaffolding's insurance expired. The permit needs to be renewed.

Sincerely,

Paul Bailey
