BIN 1008717

CB No.102

2 Tenant Protection Plan Required for all applications with occupied dwelling units. (2014 AC 28-104.8.4) Means and methods shall be described with particularity and in no case shall terms such as "code compliant," "approved," "legal," "protected in accordance with law" or similar terms be used as a substitute for such description. The elements of the Tenant Protection Plan may vary depending on the nature and scope of the work but at a minimum shall make detailed and specific provisions for:

1. **Egress** - Clarify how adequate egress will be maintained during construction.
2. **Fire Safety** - Identify safety measures to maintain fire safety of occupied dwelling during construction.
3. **Health requirements** - Specify methods to be used for control of dust, disposal of construction debris, noise control, maintenance of sanitary facilities during construction.
 - 3.1. **Lead and asbestos** - Statement of compliance with applicable provisions of law relating to lead and asbestos, such statement shall describe with particularity what means and methods are being undertaken to meet such compliance.
4. **Compliance with housing standards** - Demonstrate compliance with NYC housing maintenance code and NYS multiple dwelling law during construction.
5. **Structural safety** - Identify specific measures to maintain structural stability during construction.
6. **Noise restrictions** - Identify measures to comply with NYC Noise control code during construction.
7. **Maintaining essential services** - Describe the means and methods to be used for maintaining heat, hot water, cold water, gas, electricity, or other utility services in accordance with the requirements of the New York City Housing Maintenance Code. Specify if a disruption of any such service is anticipated during the work, including the anticipated duration of such disruption and the means and methods to be employed to minimize such disruption, including the provision of sufficient alternatives for such service during such disruption.
8. **Other requirements** - Any additional requirements to assure tenant safety during construction.

Complete all sections that apply below.

The proposed construction equipment is to be installed in accordance with the NYC Administrative Code §28-104.8.4:

Egress:

- Construction Equipment shall not block hallways and the required egress shall not be obstructed at any time except where approved by the commissioner.

Fire Safety:

- Construction and housekeeping operations shall strictly observe all applicable laws and controls in regard to fire safety including those with the respect to occupied dwellings. In addition, all contractors shall undertake additional fire safety measures where appropriate to the nature of the work being performed such measures during construction may include but not limited to; maintain existing fire hydrant/ Siamese connection in working order and unobstructed; provide fire extinguishers on site; maintain the integrity of all fire rated assemblies or provide temporary equivalents; and store all flammable construction materials in sealed containers.

Health Requirements:

- The contractor shall undertake all actions necessary to minimize dust, dirt; timely/orderly removal of construction debris.
- Construction operations shall not involve interruption of heating, water, or electrical services without prior arrangement.

Compliance with housing standards:

- All work to be performed in accordance with the 2014 NYC construction codes, the NYC Housing Maintenance Code, the NYS Multiple Dwelling Law (where applicable) and the regulations of all other agencies having jurisdiction.

Structural Safety:

- All required structural work shall be performed in a manner that will not endanger the occupants of the space/ building or other spaces within the perimeter of the building. The contractor shall provide adequate temporary bracing and shoring wherever any structural work is involved.

Noise Restrictions:
