2 Tenant Protection Plan Required for **all** applications with occupied dwelling units. (2014 AC 28-104.8.4) Means and methods shall be described with particularity and in no case shall terms such as "code compliant," "approved," "legal," "protected in accordance with law" or similar terms be used as a substitute for such description. The elements of the Tenant Protection Plan may vary depending on the nature and scope of the work but at a minimum shall make detailed and specific provisions for:

1. **Egress** - Clarify how adequate egress will be maintained during construction.
2. **Fire Safety** - Identify safety measures to maintain fire safety of occupied dwelling during construction.
3. **Health requirements** - Specify methods to be used for control of dust, disposal of construction debris, noise control, maintenance of sanitary facilities during construction.
 - 3.1. **Lead and asbestos** - Statement of compliance with applicable provisions of law relating to lead and asbestos, such statement shall describe with particularity what means and methods are being undertaken to meet such compliance.
4. **Compliance with housing standards** - Demonstrate compliance with NYC housing maintenance code and NYS multiple dwelling law during construction.
5. **Structural safety** - Identify specific measures to maintain structural stability during construction.
6. **Noise restrictions** - Identify measures to comply with NYC Noise control code during construction.
7. **Maintaining essential services** - Describe the means and methods to be used for maintaining heat, hot water, cold water, gas, electricity, or other utility services in accordance with the requirements of the New York City Housing Maintenance Code. Specify if a disruption of any such service is anticipated during the work, including the anticipated duration of such disruption and the means and methods to be employed to minimize such disruption, including the provision of sufficient alternatives for such service during such disruption.
8. **Other requirements** - Any additional requirements to assure tenant safety during construction.

Complete all sections that apply below.

1. **EGRESS** - During construction, construction materials shall be brought to the roof via a mobile ground mount crane. At no time shall materials be staged inside the building at any hall or egress path. Required egress shall not be obstructed during the project. Tools and smaller materials may be brought in through the main entry and up the stairs, however they shall be brought immediately to the roof exterior, and shall at no times block any egress path.

2. **FIRE SAFETY** - All necessary laws and controls, including those with respect to occupied dwellings, as well as additional safety measure necessitated by the construction shall be strictly observed. At no point shall any open flames be permitted in the building nor on the roof. All electrical work shall be performed in accordance with NEC and NFPA guidelines. The electrical work shall pass inspection of an approved UL inspection agency licensed and properly qualified to perform the inspection in the city of New York.

3. **HEALTH REQUIREMENTS** - The bulk of the construction is exterior, the construction of roof mounted solar energy photovoltaic electric system and its associated mounting system. No disturbance of existing building materials is to occur beyond what is required for construction of the system and its components. Some interior work will be required, wiring the system into the existing building electrical system. All electrical work shall pass inspection of an approved UL inspection agency licensed and properly qualified to perform the inspection in the city of New York. All construction debris shall be cleaned daily from the worksite, and will not be left exposed on the roof.

4. **COMPLIANCE WITH HOUSING STANDARDS** - The requirements of the New York City maintenance code, and, where applicable, the New York State multiple dwelling law shall be strictly observed.
