

TPP1: Tenant Protection Plan

Must be completed as fill in PDF

1 Location Information Required for <i>all</i> applications.				
House No(s) 2741	Street Name SEDGWICK AVENUE		Number of apartments to remain occupied 062	
Borough BRONX	Block 03253	Lot 00063	BIN 2092453	CB No. 208
2 Tenant Protection Plan Required for <i>all</i> applications with occupied dwelling units. (2014 AC 28-104.8.4)				

1. **Egress** - Clarify how adequate egress will be maintained during construction.
2. **Fire Safety** - Identify safety measures to maintain fire safety of occupied dwelling during construction.
3. **Health requirements** - Specify methods to be used for control of dust, disposal of construction debris, noise control, and maintenance of sanitary facilities during construction.
4. **Compliance with housing standards** - Demonstrate compliance with NYC housing maintenance code and NYS multiple dwelling law during construction.
5. **Structural safety** - Identify specific measures to maintain structural stability during construction.
6. **Noise restrictions** - Identify measures to comply with NYC Noise control code during construction.
7. **Other requirements** - Any additional requirements to assure tenant safety during construction.

Complete all sections that apply below.

The building located at 2741 SEDGWICK AVENUE, BRONX NY 10468 contains dwelling units that will be occupied during construction. During the construction of the project, all dwelling units may be occupied. The work is for a roof mounted solar energy photo-voltaic electric system. The bulk of the work is installation of equipment on the roof. The materials will be brought to the roof with a crane.

1. **Egress** - During construction, construction materials shall be brought to the roof via a mobile ground mounted crane. At no time shall materials be staged inside the building at any hall or egress path. Required egress shall not be obstructed during the project. Tools and smaller materials may be brought in through the main entry and up the stairs, however they shall be brought immediately to the roof exterior, and shall at no times block any egress path.
2. **Fire Safety** - All necessary laws and controls, including those with respect to occupied dwellings, as well as additional safety measures necessitated by the construction shall be strictly observed. At no point shall any open flames be permitted in the building nor on the roof. All electrical work shall be performed in accordance with NEC and NFPA guidelines. The electrical work shall pass inspection of an approved UL inspection agency licensed and properly qualified to perform the inspection in NYC.
3. **Health Requirements** - The bulk of the construction is exterior, the construction of a roof mounted solar energy photo-voltaic electric system and its associated mounting system. No disturbance of existing building materials is to occur beyond what is required for construction of the system and its components. Some interior work will be required, wiring for the system into the existing building electrical system. All electrical work shall pass inspection of an approved UL inspection agency licensed and properly qualified to perform the inspection in NYC. All construction debris shall be cleaned daily from the work site, and will not be left exposed on the roof.
A. All work shall be performed in compliance with applicable provisions of law relating to lead and asbestos.
4. **Compliance with Housing Standards** - The requirements of NYC Housing Maintenance code, and, where applicable, the NYS Multiple Dwelling law shall be strictly observed.
5. **Structural Safety** - No structural work shall be done that may endanger the occupants. The extent of work for this project is the installation of an exterior roof mounted solar energy photo-voltaic electric system. No other structural work or modification is to be performed. Any issues which arise during construction should be brought to the attention of the engineer. All construction materials, when brought to the roof, shall be immediately spread evenly over the roof surface so as to avoid any localized loading of the roof structure.
6. **Noise Restrictions** - Hours of construction shall be limited to 7 AM - 6 PM weekdays. The construction tools shall be utilized on the roof of the building approximately 55'-00" above the street, and outside of any of the interior residences of the building.
