

TPP1: Tenant Protection Plan

Required if dwelling units will be occupied during construction. Owner must notify the Department at least 72 hours before commencing work in connection with the Tenant Protection Plan.

BIS JOB #: _____

1 LOCATION INFORMATION

House No(s) Street Name Number of dwelling units to remain occupied during construction:
 1721 Jarvis Avenue 2
 Specific unit/apartment numbers to remain occupied:
 2
 Borough BRONX Block 4175 Lot 22 BIN 2046225 CB No. 210

2 TENANT PROTECTION PLAN

Required for all applications with occupied dwelling units (AC 28-120.1). Means and methods shall be described with particularity and in no case shall terms such as 'code compliant,' 'approved,' 'legal,' 'protected in accordance with law' or similar terms be used as a substitute for such description. The Tenant Protection Plan must be site specific. The elements of the Tenant Protection Plan may vary depending on the nature and scope of the work but at a minimum, must comply with all applicable laws and regulations, including the NYC Construction Codes, the NYC Housing Maintenance Code, the NYC Noise Control Code, and the NYC Health Code, and shall make detailed and specific provisions for:

1. **Egress** - Clarify how adequate egress will be maintained during construction.
2. **Fire Safety** - Identify safety measures to maintain fire safety of occupied dwelling during construction.
3. **Health requirements** - Specify methods to be used for control of dust, disposal of construction debris, noise control, maintenance of sanitary facilities during construction.
 - 3.1. **Lead and asbestos** - If the work involves disturbance of lead-based paint, as defined in section 27-2056.2, or paint of unknown lead content or asbestos include a statement of compliance with applicable provisions of law relating to lead and asbestos. Indicate whether the firm performing the work holds the certifications required to perform the work pursuant to section 27-2056.11, and include the firm name and certification numbers. List any open violations related to lead issued by the NYC Department of Health and Mental Hygiene (DOHMH) or the NYC Department of Housing Preservation and Development (HPD). If there are open violations related to lead, include the violation number, date issued, and city agency that issued the violation.
4. **Compliance with housing standards** - Demonstrate compliance with NYC housing maintenance code and NYS multiple dwelling law during construction.
5. **Structural safety** - Identify specific measures to maintain structural stability during construction.
6. **Noise restrictions** - Identify specific means and methods to be used for the limitation of noise to acceptable levels in accordance with the NYC Noise Control Code.
7. **Maintaining essential services** - Describe the means and methods to be used for maintaining heat, hot water, cold water, gas, electricity, or other utility services in accordance with the requirements of the New York City Housing Maintenance Code. Specify if a disruption of any such service is anticipated during the work, including the anticipated duration of such disruption and the means and methods to be employed to minimize such disruption, including the provision of sufficient alternatives for such service during such disruption. Notification of the disruption must be given to all affected occupants of occupied dwelling units.
8. **Other requirements** - Any additional requirements to assure tenant safety during construction.

Complete all sections that apply below.

1. **Means of egress:** All existing means of egress for tenants of the building are to be maintained clear and free of all obstructions such as building materials, equipment, tools etc. Contractor to provide adequate temporary bracing and shoring wherever any structural work is to be performed. Provide heavy-duty sidewalk bridge for protection of public and tenants wherever work is to be performed above ground level.
2. **Fire safety:** Contractor shall be responsible for performing all work complying with NYC fire code and NYC building code requirements. All building materials stored at construction area, and /or in any area of the building are to be secured in a locked area. access to such areas to be controlled by the owner and/or general contractor. All flammable materials to be used are to be kept in adequately ventilated areas. All electrical power to be shut-off where there are exposed conduits. Contractor is to make sure at all times that there is no leakage of natural gas or flammable gas used in construction in the building. All means of fire egress must always be maintained clear.
