The staff of the Landmarks Preservation Commission recently received a request to inspect work completed at the subject premises. Accordingly, staff reviewed the photographs submitted, and found that the work, including constructing a one-story stucco-clad rear yard addition, featuring metal window assemblies and a copper overhang, and installing metal railings and fire escape ladders at the roof, has been completed in compliance with Certificate of Appropriateness (COFA) 08-4594 (LPC 10-3663), issued November 7, 2007.

Thank you for your cooperation.
