Re: INTERCONNECTION FINAL APPROVAL
920 E 48th St
Brooklyn, NY 11203
Case: MC-167295

Dear Sir/Madame:

Please be advised that the interconnection application has been approved for interconnection by Consolidated Edison Company of New York. The application is accepted for interconnection to operate in parallel with the Consolidated Edison system as of 06/07/16

This authorization is limited to a determination that the installation described above is accepted by Consolidated Edison Company of New York. You are required to ensure that your DG equipment is in compliance with any other jurisdictions, including local building codes and ordinances. You are reminded that your contract for the "Interconnection of a New Distributed Generation Unit with a Capacity of 2 MW or Less" requires the Customer to obtain all environmental and other permits required by governmental authorities for the construction and operation of the Unit.

If there are any modifications made to your equipment after the date of approval, you must contact Consolidated Edison Company of New York. You are further reminded of the continuing obligation to perform verification testing at least once every four years as well as any verification tests prescribed by the manufacturer. You must maintain a log of these tests for inspection by Consolidated Edison Company of New York.

For billing inquiries, please contact us via email at NetMetering@coned.com, by phone at 212-780-6600 or you can visit our website www.coned.com/Solar for answers to frequently asked questions. In addition, please be advised that if the customer's account is enrolled in Con Edison's 'Level Payment Plan', the customer should contact us.

Sincerely,

Phyllis Del Re
