Please find below our response to the objections on the Markup Set issued 12/15/2020:

A-000 The construction class has been revised.

A-010 - the dimensions on the yard have been corrected. Note that the 7'-0" yard is allowed per ZR 54-313 which allows a 1/2 family house with a non-complying side yard to be vertically enlarged per R-3-2 zoning. R-3-2 only requires a 5'-0" minimum side yard. Therefore the 7'-0" proposed yard complies. The south "side yard" has been removed and replaced with "adjacent side yard".

The house does have a basement per the submitted sanborn map. The house is a 2-family per the DOF records. As there is no CofO or other documentation to prove otherwise, this should govern. There is a separate entrance to the basement apartment, and there is adequate light and air with the removal of the partition proposed (not utilizing the lot line window). See the the demolition and construction plans..

The porch was constructed under Alt-1456-031021, see submitted AI1 and records. We are proposing only to rebuild the roof and add a railing so it can be used as a balcony for the 2nd floor bedroom.

DM-100 - The basement apartment is legal per the DOF records. The wall is to be removed between the two rooms in the center area to create a single living room with adequate light (not including the lot line window) from the one existing and one new window at the north side yard.

Please elaborate why "crawl space" should be removed.

A-110 - The dryer is indicated as electric, the railings have been called out on the plan, see above regarding the basement.

A-121 - the lighting specs have been updated to call out 90% high efficacy per the 2020 ECC

A-200s - the insulation is called out on the sections and the railings are labeled
