The staff of the Landmarks Preservation Commission recently received a request to inspect work completed at the subject premises. Accordingly, staff reviewed the submitted photographs and found that the installation of solar panels at the roof has been completed in compliance with Certificate of No Effect 21-04167 (LPC 21-04167), issued on December 9, 2020. Therefore, the Commission has no objection to the issuance of final Department of Buildings sign-off for this work at the subject premises.

Thank you for your cooperation.
