Ira Gluckman, R.A.,
Borough Commissioner
Department of Buildings
120-55 Queens Blvd
Kew Gardens, NY 11415

**RE: Self-Certified Site Connection Proposal for 22-02 121st Street,
Block #4196, Lot # 21, SCQ-62/09 SB
Borough of Queens**

410231235

Dear Mr. Gluckman:

During a routine audit prior to approval of the Sewer Connection Permit Application, the Department of Environmental Protection (DEP) discovered that the site connection proposal application that was filed for the subject premises has the following deficiency:

- Any applications involving mapping, de-mapping or widening line cannot be self-certified.

Please be advised that the Registered Architect/Professional Engineer must submit a regular Site Connection Proposal for our review. **No connection permit shall be issued until DEP certifies this application.**

Very truly yours,

James A. Luke, P.E., Chief
Division of Permitting & Inspection
