Queens County
Block 15817, Lot 1
CCCU Approval # E2036614

Gentlepeople:

A Watts 757 DCDA device was substituted for the Specified AMPS 3000ss DCDA device. The devices are similar with similar friction loss characteristics.

Additionally the device, was installed in accordance with the approved plans, however, it was located in the Northeast corner of the facility.

The changes have no effect on the design or operation of the fire protection systems for this property.

Respectfully Submitted,

Michael S. Goldstein, P.E.
