I hereby wish to respectfully respond to the Notice of Objections, dated 9/25/2020, as follows:

1. The required prior-to-approval required items (PW3, ACP-5, TR4, TR1, TR8, etc.) have been submitted and section 22 on the PW1 has been corrected. Section 20 of the PW1 correctly indicates that the site is located in a Special Flood Hazard Area as per the latest PFIRM.
2. Signed and sealed TR1 and TR8 forms have been submitted. There is no requirement to provide TR2/TR3 (Concrete Sampling and Testing/Concrete Design Mix) as per BB 2009-026 and the TR2/TR3 Exemption notes and calculations added to sheets Z-101 and A-101. The TR8 as been revised to include Interior Lighting Power but, Lighting Controls is only applicable to commercial buildings.
3. The existing frame, open, roofed porch on the north side of the building was erected prior to 1938 and there is no proposed change.
4. The legality of the existing building was established based upon the 1950, 1933 and 1912 Sandborn maps, which have been submitted. Both maps indicate that the frame construction within 3' of the lot line on the north side of the building existed prior to 1938. The legality of the three (3) buildings at the rear of the site was established by the Letter(s) of No Objection #6528, 6529 and 6530, dated 8/4/2017.
5. The Zoning Analysis on sheet Z-101 has been revised to clarify that the proposed construction is either existing complying or existing non-complying and permitted as per section 54-21 ZR. There is no proposed enlargement and the plans have been revised to clarify that there is no proposed open parking.
6. An original survey has been submitted.
7. The plans have been revised to address the marked-up plans.
