5. **Structural Safety** – Identify specific measures to maintain structural stability during construction.
6. **Noise Restrictions** – Identify specific means and methods to be used for the limitation of noise to acceptable levels in accordance with the NYC Noise Control Code.
7. **Maintaining Essential Services** – Describe the means and methods to be used for maintaining heat, hot water, cold water, gas, electricity, or other utility services in accordance with the requirements of the New York City Housing Maintenance Code. Specify if a disruption of any such service is anticipated during the work, including the anticipated duration of such disruption and the means and methods to be employed to minimize such disruption, including the provision of sufficient alternatives for such service during such disruption. Notification of the disruption must be given to all affected occupants of occupied dwelling units.
8. **Other requirements** – Any additional requirements to assure tenant safety during construction.

Complete all sections that apply below.

1. **Egress:** During the period of construction (typically approx. 6 hours), there is no time throughout the project where the installation teams are blocking or closing off any entrances or exists of the residence. We will set drop zones in the area where we are working. This is an area which is quarantined off with orange safety cones, which we speak with the homeowner and ask them not to walk through that area so they are out of harm's way.
2. **Fire Safety:** The contractor will ensure that all flammable materials to be kept tightly sealed and stored in an orderly fashion and kept away from heat. All flammable materials will be used and stored in an adequately ventilated space. All electrical power to be shut-off where there are exposed conduits. All electrical power in the construction area to be shut off after working hours. Contractor to ensure there are no leaks of natural gas in the building or any flammable gas to be used during construction. Contractor to ensure proper fire extinguishers shall be maintained on site in a location known and obvious to all on site workers.
3. **Health Requirements:** Construction is done in accordance with OSHA standards.

If additional space is required, please complete and submit an A11 form.
