2 TENANT PROTECTION PLAN

Required for all applications with occupied dwelling units (AC 28-120.1). Means and methods shall be described with particularity and in no case shall terms such as 'code compliant,' 'approved,' 'legal,' 'protected in accordance with law' or similar terms be used as a substitute for such description. The Tenant Protection Plan must be site specific. The elements of the Tenant Protection Plan may vary depending on the nature and scope of the work but at a minimum, must comply with all applicable laws and regulations, including the NYC Construction Codes, the NYC Housing Maintenance Code, the NYC Noise Control Code, and the NYC Health Code, and shall make detailed and specific provisions for:

- Egress** – Clarify how adequate egress will be maintained during construction.
- Fire Safety** – Identify safety measures to maintain fire safety of occupied dwelling during construction.
- Health requirements** – Specify methods to be used for control of dust, disposal of construction debris, noise control, maintenance of sanitary facilities during construction.
 - Lead and asbestos** – Statement of compliance with applicable provisions of law relating to lead and asbestos, such statement shall describe with particularity what means and methods are being undertaken to meet such compliance.
- Compliance with housing standards** – Demonstrate compliance with NYC housing maintenance code and NYS multiple dwelling law during construction.
- Structural safety** – Identify specific measures to maintain structural stability during construction.
- Noise restrictions** – Identify specific means and methods to be used for the limitation of noise to acceptable levels in accordance with the NYC Noise Control Code.
- Maintaining essential services** – Describe the means and methods to be used for maintaining heat, hot water, cold water, gas, electricity, or other utility services in accordance with the requirements of the New York City Housing Maintenance Code. Specify if a disruption of any such service is anticipated during the work, including the anticipated duration of such disruption and the means and methods to be employed to minimize such disruption, including the provision of sufficient alternatives for such service during such disruption. Notification of the disruption must be given to all affected occupants of occupied dwelling units.
- Other requirements** – Any additional requirements to assure tenant safety during construction.

Complete all sections that apply below.

- EGRESS:** At all times in the course of construction provision shall be made for adequate egress as required by this code and the tenant protection plan shall identify the egress that will be provided. Required egress shall not be obstructed at any time except where approved by the commissioner. All existing means of egress for tenants of the building to be maintained clean and free of all obstructions, such as building materials, etc.
- FIRE SAFETY:** All necessary laws and controls, including those with respect to occupied dwellings, as well as additional safety measures necessitated by the construction shall be strictly observed.
- HEALTH REQUIREMENTS:** This construction is a roof-mounted solar energy PV system. Construction work will be primarily on the roof, and on an exterior wall where the panel will be located. No disturbance of existing building materials is to occur beyond what is required for construction of the system and its components. Construction materials and debris shall be cleaned daily from the work site and will not be left exposed on the roof. Dust and debris will be confined to the immediate construction area and be cleaned up and cleared from the building periodically to avoid any excessive accumulation.

3 Additional Information Required for all applications.

3.1 If required by DEP Asbestos Rules, a Certified Asbestos Investigator has filed the required ACP5 and has detailed the required abatement measures on that form. If it has been determined that areas that will be disturbed have the potential to contain lead-based paint or other materials, an EPA Lead Safe Certified firm will be engaged to inspect and identify abatement procedures as needed.

4. COMPLIANCE WITH HOUSING STANDARDS: The requirements of the New York City housing maintenance code, and, where applicable, the New York State multiple dwelling law shall be strictly observed.

5. STRUCTURAL SAFETY: No structural work shall be done that may endanger the occupants.

6. NOISE RESTRICTIONS: Where hours of the day or the days of the week in which construction work may be undertaken are limited pursuant to the New York City noise control code, such limitations shall be stated. Construction operations will be confined to normal working hours 9am to 5pm, Mondays through Fridays, except legal holidays.

7. MAINTAINING ESSENTIAL SERVICES: The planned work for this filing does not impact maintenance of heat, hot water, cold water, gas, or other utility services with the exception of electricity service. Electrical service is anticipated to be shut down for no more than 1 hour during the installation of the PV panel. Timing and duration of the interruption will be coordinated in person with the property resident. No disruption of any other services is anticipated during the work.

8. OTHER REQUIREMENTS - (None noted)

Note: There is no change in Use, Egress or Occupancy as a result of this filing.
